About CREHPA

Center for Research on Environment Health and Population Activities (CREHPA) is a not-for-profit research organization based at Lalitpur, (Kathmandu valley), Nepal. It is registered under Society's Act 2034, HMG as a non-governmental organization (NGO). It is also registered with the Social Welfare Council (SWC), Nepal. Established in July 1994, CREHPA has well-trained professional staff with many years of research experiences in the field of public health, population, reproductive and sexual health and rights, adolescent sexual and reproductive health, child rights, gender issues including CEFM and other harmful practices, labor migration and human trafficking, environment/climate change, etc. The organization's expertise lie in application of operations research studies, RCT and non-inferior trails, and participatory research methods such as focused ethnographic study (FES), narrative (story-based) focus group discussions (NFGD); social mapping and figurehead techniques to triangulate/corroborate secondary analysis and cross-sectional surveys.

As of date, CREHPA has carried out more than 250 research and evaluation studies (both quantitative, qualitative and clinic-based studies). CREHPA works closely with the Ministry of Health and Population; Ministry of Women, Children and Senior Citizen; Ministry of Education, Science and Technology at the Federal level and with the related ministries at the provincial levels in identifying priority areas for research, producing and disseminating policy-relevant research, strategies and plan of actions (PoA) on demand. Results of policy research are disseminated widely and utilized for advocacy to influence law and policy decisions in the country.

The organization's founding Director had served as member of the Gender Advisory Panel, WHO/Geneva (2006-2009); Member, Regional Advisory Panel of SEARO/WHO (2008-2012), Council Member, Asian Population Association (2013-2015), Steering Committee member of Asia Safe Abortion Partner (ASAP) and National Coordinator/General Secretary of Girls Not Brides Nepal (2012-2022). Professionals of CREHPA had served as international consultants for conducting capacity building training and feasibility studies in Maldives (2009-10) evaluation of adolescent reproductive health program and five-year strategy planning of a leading civil society organization in Laos PDR (2011) and national reproductive health survey in North Korea (2011-12). As the founder member of the Girls Not Brides Nepal Chapter (established in February 2012), CREHPA has carried out formative research to identify drivers of child marriage practices in Nepal, carried out and contributed to the preparation of a National Strategy for the Government of Nepal on ending child marriage practices in the country.
